

CORPORATE SOCIAL RESPONSIBILITY POLICY

Singapore Technologies Aerospace (ST Aerospace) shall honour our obligations as a good Corporate Citizen by being an economic, intellectual and social asset in the communities that we operate. Our principles in our corporate social responsibility are as follows:

COMMUNITY AT LARGE

We shall strive to improve the quality of life in the communities where we operate by encouraging volunteerism of our employees through various community involvement programmes.

ENVIRONMENT

We are committed to meeting the expectations and standards of the environment where we operate and minimising the environmental impacts of all our business operations.

AVIATION CITIZENSHIP

We aim to be an active global citizen in the aviation community through the sharing of knowledge and activities that would result in the betterment of the aviation industry.

TOTAL DEFENCE

We recognise that our business operations contribute to the overall defence of Singapore, and we shall play our part to contribute to an effective Total Defence. We also recognise the youth of today as an important national resource and strive to develop them by providing assistance to worthy individuals and groups.
